

StoveTop FireStop

PLUS LC™

- NEW ClickBar® for installation under microwaves, and other low clearance situations
- STFS Plus ramp improves powder delivery to the stove
- For residential, indoor kitchens
- Automatic suppression
- Stylish new design
- One pair protects typical residential, 4-burner stove
- Vertical clearance: 15-32" between the mounting point and the cooking surface
- No maintenance or inspections needed
- 6-year effective life

STFS PLUS LC

STFS Plus LC takes the improvements achieved with STFS Plus® and adds an easy-to-install ClickBar for installations as low as 15 inches under dozens of different above-the-stove microwave configurations. The canister and 360° delivery ramp are molded from UL® rated fire-retardant plastic. This patented system distributes a controlled flow of fire suppressing powder for better coverage over the cooking surface.

STFS PLUS LC DECORATIVE COVER

This decorative cover is designed to fit over STFS Plus LC, and available in three finishes, to provide a clean, seamless look in your contemporary kitchen. Sold Separately.

Shown here with Decorative cover. Sold separately.

One night back in 1972, our company's founders were attending a neighborhood block party when they overheard someone talking about a recent grease fire. The neighbor stated, "I got distracted and left the stove on. Sure, I had a fire extinguisher and baking soda in the fridge. But since I wasn't in the kitchen to use them, neither did me any good!" Hearing this story became a revelation, and launched the design of the simple, automatic fire suppressor that is today known as StoveTop FireStop.

PROVIDING SIMPLE, AUTOMATIC COOKING FIRE SUPPRESSION IS SOMETHING WE TAKE VERY SERIOUSLY.

StoveTop FireStop has protected individuals and families from the deadly effects of cooking fires since 1972, and we want to do the same for you and your family.

Originally founded in 1963 by Bob and Della Williams, the company now known as WilliamsRDM has a knack for solving complex problems with simple solutions.

MODEL COMPARISON FOR MICROWAVE & CABINETS

	Microhood	STFS Plus LC
PART NUMBER	677-1 (Black), 677-2 (White)	679-LC-3
HOOD TYPE	Protects kitchens with traditional microwaves or cabinets above the cooking surface	
CLEARANCE	27-35 inches	15-32 inches
AUTOMATIC	Works automatically. Suppresses fires even when no one is in the kitchen	
FUNCTION	Powder is released onto fire only with direct, sustained contact with a flame	
ALERT	Makes a "POP!" sound upon activation	
UNIT OF SALE	Sold by the pair to protect a residential, four-burner cooktop	
EFFECTIVE LIFE	Cooking fire protection for up to six (6) years	
POSITIONING	Position one unit directly above front and back burner on each side of cooktop. The center of the rear canister must be over the rear burner.	Position each canister at the midpoint between the center of the front and back burner on each side of cooktop surface
MOUNTING*	Included wall fasteners for dry-wall or stud installation. Optional adhesive pads or material-specific hardware, not included	Attaches by a pre-installed magnet to underside of ventilation hood
NOTES	Best use for stoves with low-mounted cabinets or microwaves	Designed specifically for stoves with microwaves
	We invented the technology, and have been the market leader for over 40 years	New omnidirectional ramp increases powder distribution on the cooking surface
	Plastic housings should rest flush with the lower front edge of microwave or cabinet door	Improved design and color to match your designer hood's finish

* Alternative mounting kits available for purchase online.
